

FRANCIS JAY AMOGUIS

Profile

Aspiring front-end developer passionate about building fast, responsive, and user-friendly web applications. Proficient in creating UI/UX wireframes using Figma and Adobe XD, and experienced with GitHub for version control. I am seeking an entry-level position where I can apply my skills to real-world projects and continue growing in a collaborative and modern development environment.

Project Experience

UM RESEARCH PORTAL

- A comprehensive website that can manage, track, and store research titles efficiently, allowing users to categorize their work, collaborate with peers, and access a searchable database for easy retrieval and organization of their research projects.

E-BRGY: BARANGAY GOVERNANCE MANAGEMENT

- The E-BRGY: Barangay Governance Management System modernizes barangay administration in the Philippines by automating processes and enhancing transparency through online services and centralized databases.

BTS: BUDGET TRACKING SYSTEM APP

- The Budget Tracker App helps users effortlessly monitor and manage their spending by categorizing expenses, setting budgets, and providing insightful reports for better financial control.

I HEREBY CERTIFY that the information provided in this form is complete, true, and correct to the best of my knowledge.
