Profile

I'm a Front-End and Software Developer with practical experience building real-world systems, including a POS Inventory and Cashiering System for PALMPC Co-op. I'm skilled in HTML, CSS, JavaScript, React, PHP, VB.NET, and SQL. I also have experience in UI/UX design using Figma and managing code with Git for version control.

Skills

- Programming (Java, Vb.Net, Python)
- Web Development (PHP & Laravel, Bootstrap, React.js)
- Database Management (MySQL, Firebase)
- Software Development
- Team Collaboration
- Communication Skills
- Flutter
- Android Studio
- Adobe XD Premium

Project Experience

PALMPC COOP Inventory and Cashiering System

The COOP PALMPC System is a VB.NET POS with SQLyog for real-time inventory, sales, barcode scanning, printing, and reports. Designed in Figma and managed via GitHub for efficient, accurate operations.

E-BRGY: BARANGAY GOVERNANCE MANAGEMENT SYSTEM

The E-BRGY: Barangay Governance Management System is a digital platform designed to modernize barangay administration in the Philippines by automating processes, enhancing transparency, and fostering community engagement through features like centralized databases, online service requests, and appointment scheduling.
